JANUARY

Number 1

Page

BJØRN URSIN:
Editorial 1

M. KINDELAN, G. SERIANI and P. SGUAZZERO:
Elastic modelling and its application to amplitude versus angle interpretation 3

R. BARIA, P. D. JACKSON and D. M. MCCANN:
Further development of a high-frequency seismic source for use in boreholes 31

JAKOB T. FOKKEMA and PETER M. VAN DEN BERG:
Seismic inversion by a rms Born approximation in the space–time domain 53

U. CASTEN and CHR. GRAM:
Recent developments in underground gravity surveys 73

R. DARBOUX-AFOUDA and P. LOUIS:
Contribution des mesures de l'anisotropie électrique à la recherche des aquifères de fracture en milieu cristallin au Bénin 91

R. D. BARKER:
Comment on "Examination of sounding curve extrapolation used by the Offset Wenner system" by P. A. White and D. M. Scott 107

P. A. WHITE and D. M. SCOTT:
Reply to Comment by R. D. Barker 111

Publications Received 113

FEBRUARY

Number 2

Page

J. H. KOMMEDAL and B. A. TJØSTHEIM:
Tutorial: A study of different methods of wavefield separation for application to VSP data 117

H. JAKUBOWICZ and D. MILLER:
Two-pass 3D migration and linearized inversion in the (x, t)-domain 143

B. J. VERWEST:
Seismic migration in elliptically anisotropic media 149

H. A. K. EDELMANN, F. KIRCHHEIMER and L. SCHULTE:
Decomposed vibrator patterns to improve seismic survey results 167

W. LYNN and K. LARNER:
Effectiveness of wide marine seismic source arrays 181

SRI NIWAS and M. ISRAEL:
Matrix method for the transformation of resistivity sounding data of one electrode configuration to that of another configuration 209

Publications Received 223

Announcements 224

APRIL

Number 3

Page

O. E. Næss and L. Bruland:
Improvement of multichannel seismic data through application of the median concept 225
Wen-Fong Chang and George A. McMechan:
3D acoustic reverse-time migration 243
J. L. Mari:
Q-log determination on downgoing wavelets and tube wave analysis in vertical seismic profiles 257
H. Granser, B. Meurers and P. Steinhauser:
Apparent density mapping and 3D gravity inversion in the Eastern Alps .. 279
V. K. Shettigara and W. M. Adams:
Detection of lateral variations in geological structures using electrical resistivity gradient profiling 293
D. F. Aldridge and D. W. Oldenberg:
Direct current electric potential field associated with two spherical conductors in a whole-space 311
Publications Received 331

MAY

Number 4

Page

A. Haas and J. R. Viallix:
Stochastic inversion by ray continuation: application to seismic tomography 337
Özdoğan Yilmaz:
Velocity-stack processing 357
Dan Kosloff, Anibal Queiroz Filho, Ekkehart Tessmer and Alfred Behle:
Numerical solution of the acoustic and elastic wave equations by a new rapid expansion method 383
Yutaka Sasaki:
Sensitivity analysis of magnetotelluric measurements in relation to static effects 395
Perry A. Eaton:
3D electromagnetic inversion using integral equations 407
Ajit K. Sinha:
Magnetic wavetilt measurements for geological fracture mapping 427
Publications Received 447
Errata 454
Announcement 454

JULY

Number 5

Page

KIM BAK OLSEN:
A stable and flexible procedure for the inverse modelling of seismic first arrivals 455

TRINE DAHL-JENSEN:
Static corrections on crystalline rocks 467

JAKOB B. U. HALDORSEN and PAUL A. FARMER:
Resolution and NMO-stretch: imaging by stacking 479

N. A. KINNEGING, V. BUDEJICKY, C. P. A. WAPENAAR and A. J. BERKHOUT:
Efficient 2D and 3D shot record redatuming 493

J. L. DAVIS and A. P. ANNAN:
Ground-penetrating radar for high-resolution mapping of soil and rock stratigraphy 531

S. J. CHEESMAN and R. N. EDWARDS:
Current channelling in square plates with applications to magnetometric resistivity 553

A. M. ZIOLKOWSKI:
The scaling of air gun arrays, including depth dependence and interactions: a correction 583

Publications Received 587

Announcement 588

AUGUST

Number 6

Page

D. R. PANT and S. A. GREENHALGH:
Blocking surface waves by a cut: physical seismic model results 589

A. CARLINI and A. MAZZOTTI:
Optimized receiver array simulation based upon resolution constraints 607

P. SADOWIAK, J. VOSS and R. MEISSNER:
3D modelling of diffractions observed on deep reflection line DEKORP 2-S 623

H. M. PEDERSEN, L.-J. GELIUS and J. J. STAMNES:
3D seismic modelling of edge diffractions 639

CLAUDE FOURNIER:
Spontaneous potentials and resistivity surveys applied to hydrogeology in a volcanic area: case history of the Chaîne des Puys (Puy-de-Dôme, France) 647

L. B. PEDERSEN and T. M. RASMUSSEN:
Inversion of magnetotelluric data: a non-linear least-squares approach 669

R. W. GROOM and R. C. BAILEY:
Some effects of multiple lateral inhomogeneities in magnetotellurics 697

Publications Received 713

Announcements 714

Referees 1988 715

OCTOBER

Number 7

Page

CHRISTINA KRAJEWSKI, LOTHAR DRESEN, CHRISTOPH GELBKE and HORST RÜTER:
Iterative tomographic methods to locate seismic low-velocity anomalies: a model study 717

STUART CRAMPIN:
Suggestions for a consistent terminology for seismic anisotropy 753

ALVIN K. BENSON:
Residual depth-migration: enhancing dips 771

O. E. NÆSS:
Model-based transformations of common midpoint gathers 781

F. ROCCA, C. CAFFORIO and C. PRATI:
Synthetic aperture radar: a new application for wave equation techniques . 809

JAN DOUMA:
The representability of cracked media by periodically layered media 831

J. E. MARTIN and R. E. WHITE:
Two methods for continuous monitoring of harmonic distortion in Vibroseis signals 851

Announcement 873

NOVEMBER

Number 8

Page

RICHARD G. ANDERSON and GEORGE A. MCMECHAN:
Automatic editing of noisy seismic data 875

F. AMINZADEH:
Application of elastic modelling in processing and interpretation of VSP data: a case history 893

J. D. COVEY, F. HRON and K. L. PEACOCK:
On the role of partial ray expansion in the computation of ray synthetic seismograms for layered structures 907

G. BLACQUIÈRE, H. W. J. DEBEYE, C. P. A. WAPENAAR and A. J. BERKHOUT:
3D table-driven migration 925

HUALIN ZENG:
Estimation of the degree of polynomial fitted to gravity anomalies and its application 959

L. LANGORE, P. ALIKAJ and D. GJOVREKU:
Achievements in copper sulphide exploration in Albania with IP and EM methods 975

Errata 993

Obituary: Helmer Hedström, 1899–1988 995

Publications Received 997

Announcements 1000
